Section 1: Hands-On Demonstration

Part 1: Analyze a PCAP File for Forensic Evidence

10. Make a screen capture showing the Time Graph.

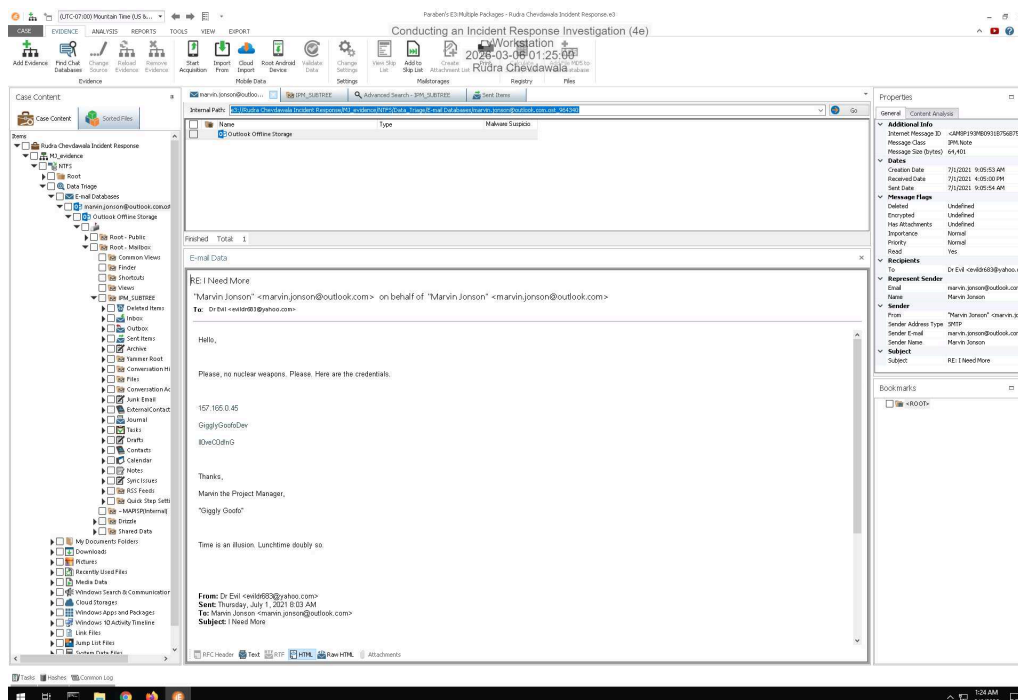

16. Make a screen capture showing the details of the 2021-Jul-13 15:33:00 session.

Part 2: Analyze a Disk Image for Forensic Evidence

18. Make a screen capture showing the email containing FTP credentials and the associated timestamps.

Part 3: Prepare an Incident Response Report

Incident Priority

Define this incident as High, Medium, Low, or Other.

Incident Priority: High

Incident Type

Include all that apply: Compromised System, Compromised User Credentials, Network Attack (e.g., DoS), Malware (e.g. virus, worm, trojan), Reconnaissance (e.g. scanning, sniffing), Lost Equipment/Theft, Physical Break-in, Social Engineering, Law Enforcement Request, Policy Violation, Unknown/Other.

A data breach occurred, this could involved both internal or external actors. Where copies of confidential files were exfiltrated from the corporate network. This incident could have stemmed from a compromised user credentials. This means that most of the incidents types could apply here but which specifically is yet to be determined. It includes but not limited to: Compromised System, Compromised User Credentials, Network Attack, Malware, Social Engineering, Policy Violation, Other/Unknown.

Incident Timeline

Define the following: Date and time when the incident was discovered, Date and time when the incident was reported, and Date and time when the incident occurred, as well as any other relevant timeline details.

The date and time of the incident was discovered on July 31st, 2021 at 10:30 AM. The date and time of the incident was reported 10 minutes later at 10:40 AM. The date and time of when the incident originally occurred started on July 13th, 2021 between 3:31 PM to 3:33 PM.

Incident Scope

Define the following: Estimated quantity of systems affected, estimated quantity of users affected, third parties involved or affected, as well as any other relevant scoping information.

The infected systems can include network locations and the personal credentials of the Giggly Goofo staff. Third parties may include the email vendors and the game studio Giggly Goofo. The quantity of the users affected is unknown at this time aside from one employee named Marvin Johnson who gave away credentials.

Systems Affected by the Incident

Define the following: Attack sources (e.g., IP address, port), attack destinations (e.g., IP address, port), IP addresses of the affected systems, primary functions of the affected systems (e.g., web server, domain controller).

Attack Sources: 157.165.0.25

Attack Destination: 172.40.0.1, 172.31.0.32, 172.30.0.2

IP Addresses of the Affected Systems: 157.165.0.45

Primary Functions of the Affected Systems: FTP Server

Users Affected by the Incident

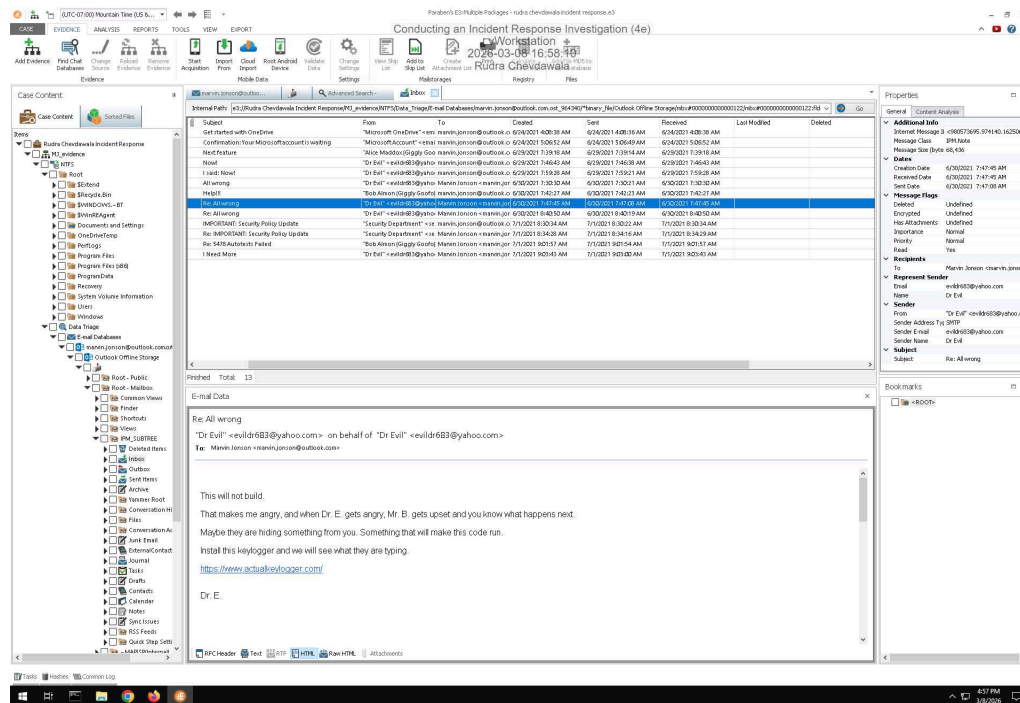

Define the following: Names and job titles of the affected users.

Marvin Johnson, as the Project Manager is an affected user.

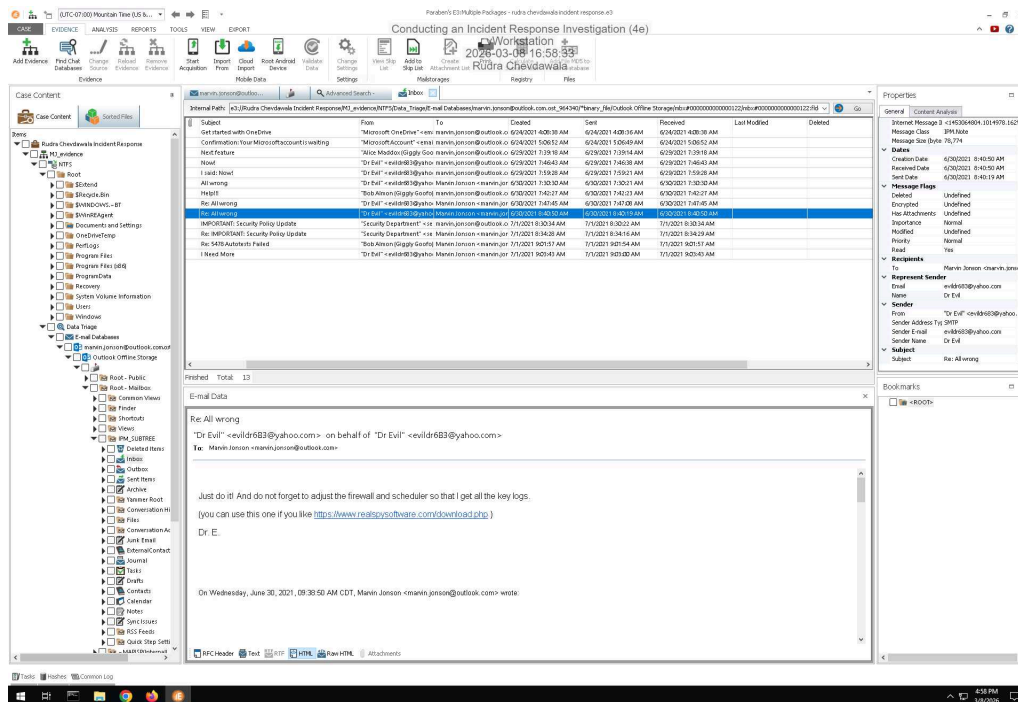

Section 2: Applied Learning

Part 1: Identify Additional Email Evidence

10. **Make a screen capture** showing the email from Dr. Evil demanding Marvin install a keylogger.

11. Make a screen capture showing the email from Dr. Evil reminding Marvin to update the firewall and scheduler.

Part 2: Identify Evidence of Spyware

5. Document the Author and Date values associated with the scheduled keylogger task.

Author: DESKTOP-CGRK7LT\Marvin Jonson.
Date: 2021-06-30T14:16:23.2705256

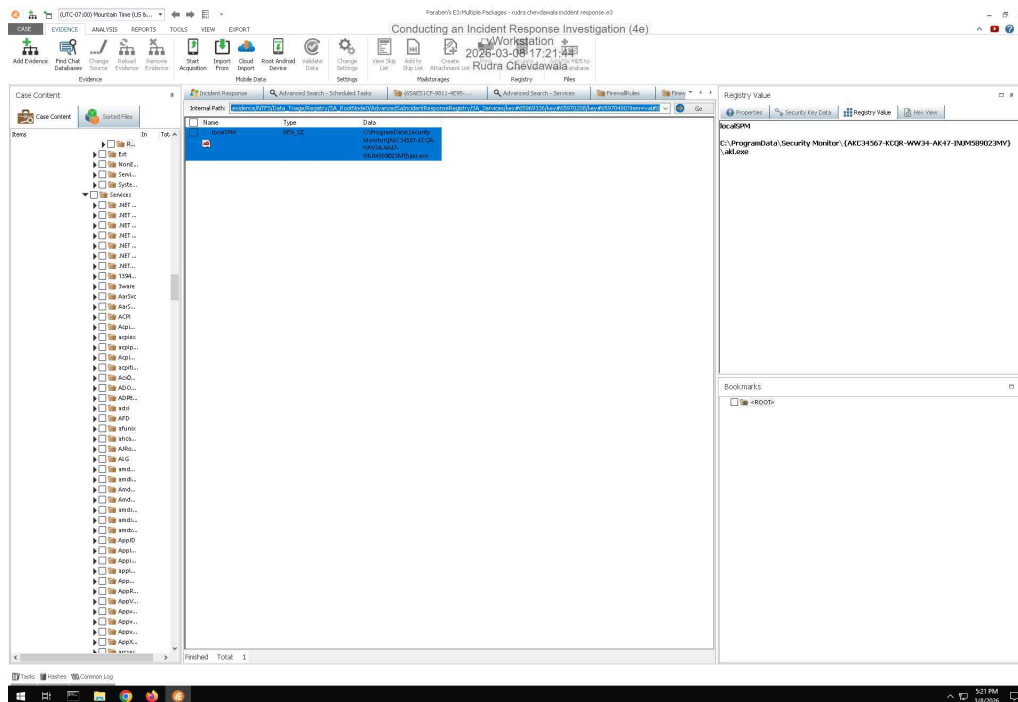

7. Document the port used for inbound connections to the keylogger and the name and location of the keylogger executable.

Port = 666

Name = Actual Keylogger

Location = C:\ProgramData\Security Monitor\{AKC34567-KCQR-WW34-AK47-INUM589023MY}akl.exe

9. Make a screen capture showing the registry key value associated with the keylogger and the localSPM service.

15. Record the first time and last time the keylogger was started.

First Start Time for Keylogger: Wednesday, June 30th, 2021 at 9:11:23 PM GMT.
Last Start Time Keylogger: Friday, July 30th, 2021 at 3:11:23 PM GMT.

17. Record whether Marvin interacted with or simply opened the keylogger.

It shows Marvin opened the keylogger.

Part 3: Update an Incident Response Report

Incident Priority

Has the incident priority changed? If so, define the new priority. Otherwise, state that it is unchanged.

Incident Priority: Unchanged

Incident Type

Has the incident type changed? If so, define any new incident type categories that apply. Otherwise, state that it is unchanged.

Incident Type: Unchanged

Incident Timeline

Has the incident timeline changed? If so, define any new events or revisions in the timeline.
Otherwise, state that it is unchanged.

Incident Timeline: Unchanged

Incident Scope

Has the incident scope changed? If so, define any new scoping information. Otherwise, state that it is unchanged.

Incident Scope: Unchanged

Systems Affected by the Incident

Has the list of systems affected changed? If so, define any new systems or new information.
Otherwise, state that it is unchanged.

Systems Affected by Incident: Unchanged

Users Affected by the Incident

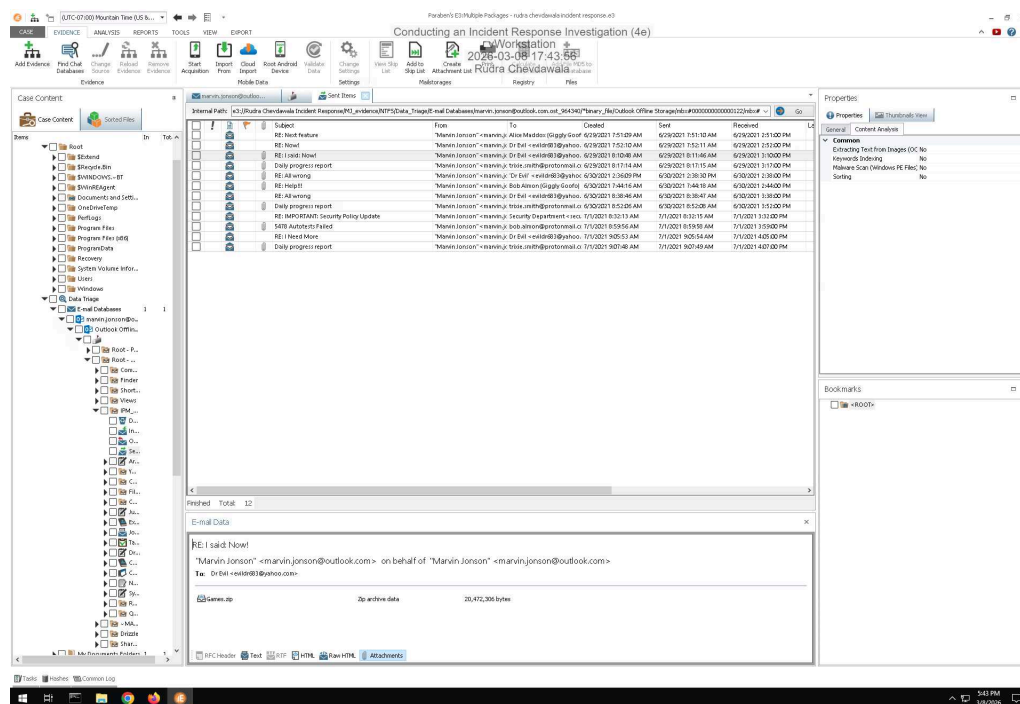

Has the list of users affected changed? If so, define any new users or new information. Otherwise, state that it is unchanged.

Users Affected by Incident: Unchanged

Section 3: Challenge and Analysis

Part 1: Identify Additional Evidence of Data Exfiltration

Make a screen capture showing an **exfiltrated file** in Marvin's Outlook database.

Part 2: Identify Additional Evidence of Spyware

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 04
